SmartLift®

SELF-CONTAINED INGROUND LIFT

ROTARY LIFT

THE WORLD'S MOST TRUSTED LIFT

Model Shown: SL210RA 10,000 lbs. capacity Inground Lift

www.rotarylif.com

Rotary SMARTLIFT® Inground Lift Series

The concept is simple...and SMART!

Start with productivity, the ease of use and the space saving footprint of an inground lift and add the lifting technology of a surface lift. Mix that with superior serviceability, unparalleled customization options and lower total cost of ownership than any other lift. Ask any service provider who owns one of the over 75,000 SmartLifts in service today. They'll tell you that nothing matches up to the original SmartLift.

10,000 lbs. capacity

Rotary DESIGN ADVANTAGE

From every angle, we've designed SmartLift® to help you get the most from your service facility - from a partner you can trust!

Maximize Space, Productivity and Lower Your Total Cost of Ownership

Reduce your facility's square footage with a clean, open and aesthetically pleasing service area.

A smaller footprint means increased vehicle access while working efficiently around the lift.

Environmental Responsibility

No EPA concerns with this inground design. Smartlifts are environmentally friendly and fully contained in a single piece polymer composite housing.

Deliver Lifting Speed-

Supercharge with SHOCKWAVE™

SHOCKWAVE™ equipped lifts are the fastest lifts in the world. Accelerate your productivity and increase service numbers per bay immediately!

Minimize Downtime and Lower Your \$\$\$ Service Costs with Patented EasyAccess™

With the EasyAccess™ cylinder design routine repair time is cut by as much as 75% - less downtime = more revenue.

Discover the Versatility of TRIO™ Arms

Patented two-piece, three-stage arm is interchangeable with three types of vehicle adapters *all on the same low-profile arm design!*

Profit from SMARTLIFT® *Lower your total cost of ownership*

Rotary SmartLifts begin to pay you back immediately with a quick R.O.I. and lower total cost of ownership over the life of the lift.

Because SmartLifts have a smaller footprint than comparable surface lifts, you can reduce the size of your facility OR install more lifts.

See the R.O.I. chart to the right.

Less lift space means lower construction costs, smaller utility bills and bigger savings over the life of your shop.

5 MONTH PAYBACK SURFACE vs. INGROUND LIFTS

Type of Lifts:	Surface	Inground
Length / size of shop:	132 feet	132 feet
Number of bays / lifts:	11 (12' wide bay)	12 (11' wide bay)
Approximate price per lift installed:	\$4,600 USD**	\$11,500 USD**
Total installed lift cost:	\$50,600 USD**	\$138,000 USD**
Difference in initial cost:	\$87,400 USD**	
Avg. annual service and parts per lift / bay:	\$223,000 USD**	
Annual revenue / shop:	\$2,453,000 USD	\$2,676,000 USD
Additional revenue w/ inground:	\$223,000 USD**	
Additional monthly revenue with inground:	\$18,583 USD**	
Payback Time: Difference in initial cost and additional monthly revenue	5 months	

*132' shop length is the point at which 11 surface lift bays = 12 SmartLift bays. **all costs are estimated

Environmental Responsibility *It's up to all of us*

Since it's introduction, SmartLifts have been installed worldwide, making it the number one choice for environmentally-responsible inground lifts.

The SMARTLIFT® Green Features:

- SmartLifts have been selected in key LEED projects.
- Can use up to only 10 quarts of "Bio-fluid"
- A **closed system** housed in a recycled polymer composite containment which protects the environment and the lift.
- **Minimal utility usage.** The SmartLift uses only .045 kWh of electricity and .01 cfm of air per lifting cycle.
- **Shockwave's™ patent pending DC power system** gives you lower cost and more reliable operation while using two standard Group 24 batteries.* Shockwave's built in battery charger uses 110v power - not 220v - eliminating expensive wiring and utility costs.
- Steel components and housing can be harvested and recycled again at the end of the lift's lifecycle.
- Minimal packaging and shipping materials from local suppliers.

Go with the proven original and be both environmentally responsible and profitable.

*Batteries not included

The solution for a smarter facility

**INSTALL SMARTLIFT.
SAVE SPACE AND MONEY.
PRESERVE THE ENVIRONMENT.**

Same number of lifts with less space can mean over \$70,000 in savings! See chart below.

Service Shop Width	70'	
Space Saved with Inground	1 / 12	
Average Building Cost / Sq. Ft.	\$106.75 USD**	
Number of Lifts in Each Shop	20	
Number of Lifts on Each Side of Shop	10	
	Surface	Inground
Min Recommended Bay Width	12'	11'
Min Recommended Shop Length	120'	110'
Shop Size (sq. ft.)	8400	7700
Difference in Shop Area	700 Square Feet	
Facility Savings	\$74,725 USD

SMARTLIFT® Versatility *Greater productivity = higher profits*

SMARTLIFT® TRIO™

Inground Lift Series

SL210 / 10,000 LBS. CAPACITY
SL212 / 12,000 LBS. CAPACITY

Available with SHOCKWAVE™

PATENTED **SMARTLIFT® TRIO™ ARMS**

THREE STAGES OF FLEXIBILITY IN A TWO-PIECE ARM DESIGN
EQUALS FASTER SPOTTING SPEED WITH 18% GREATER REACH!

VERSATILITY

SMARTLIFT TRIO™ lifts are three arm configurations in one arm design that accommodate a wider range of vehicles. Versatility in matching the right adapters on a single lift is a win for any service bay. Adapters are interchangeable with three vehicle contact options for the SL210*.

STAGE ONE REACH

Stage one adapter micro adjustment range at full arm retraction**.

STAGE TWO REACH

Single inner arm shown at full retraction and full extension**.

STAGE THREE REACH

The patented, integrated "third stage" adapter adjustment easily and quickly slides the adapter to a pinpoint vehicle contact location without moving heavy inner arms saving the technicians' set-up time.

NOW AVAILABLE ON THE
10,000 and 12,000 lbs.
CAPACITY
SMARTLIFTS!

Shown with polymer round adapters

GREATER DRIVE THRU CLEARANCE!

PATENTED LOWER PROFILE YOKE DESIGN WITH LOW DRIVE OVER PAD

The lower contoured profile allows for easier entry and exit to service bay and additional drive thru clearance between lift and vehicle.

MORE CLEARANCE
BETWEEN LIFT AND VEHICLE

GREATER DRIVE THRU
CLEARANCE BETWEEN
LIFT AND VEHICLE

*SMARTLIFT SL210 TRIO LIFTS COME STANDARD WITH YOUR CHOICE OF FA, RA OR TA ADAPTERS. EACH ADDITIONAL ADAPTER SET IS SOLD SEPARATELY. TA ADAPTERS ARE STANDARD ON 12,000 LBS. CAPACITY SL212 TRIO LIFTS.

** SHOWN WITH RA ADAPTER WITH OPTIONAL ADAPTER EXTENSION.

SMARTLIFT® Performance *Features and serviceability*

Easier serviceability with these Smartlift features means a lower total cost of ownership.

WITH SMARTLIFT, NO ADDITIONAL EQUIPMENT IS NEEDED

There are no hidden costs for special compressors, airlines or equipment!

SmartLift's proven design operates easily on typical shop air system, at only 90-120 psi.

Shown: SL210RA
10,000 lbs. capacity

PATENTED TRIO™ 2-PIECE, 3-STAGE ARM with integrated "third stage" adapter adjustment.

3-POSITION WHEEL SPOTTING DISH

Helps techs spot vehicles correctly every time.

PATENTED EasyAccess™

REDUCE ROUTINE CYLINDER REPAIR TIME BY AS MUCH AS 75%!

Reduce routine cylinder repair time with this patented feature and save hours of downtime.

EXCLUSIVE Smartguard® COATED PLUNGERS

Prevent corrosion and increase the service life of your lift.

GREASE FITTINGS ACCESSIBLE AT GROUND LEVEL

Easy access for technicians.

EASY TO REMOVE NON-SKID CENTER COVER

Allows for all interior systems maintenance to be performed from the surface. Air fittings, hydraulic hoses, and air lock cylinder can be easily serviced.

PATENTED EXCLUSIVE, LOCKING SYSTEM FOR TROUBLE-FREE OPERATION

The locking mechanism uses a patented cylinder which features stainless steel and polymer construction for maximum corrosion resistance and service life.

LOCKING SYSTEM

Engages every 3", is fully accessible for maintenance and has lower to lock function at the power unit.

PATENTED LIQUID DETECTION SYSTEM PREVENTS DOWNTIME

On LDS equipped lifts, the patented system signals the user if liquid accumulates in the containment. If required, a liquid removal system is also available.

Shown: SL210iX
10,000 lbs. capacity
shown with LDS

SINGLE-PIECE RECYCLED POLYMER CONTAINMENT

The lift is protected from the environment and the environment is protected from the lift.

SHOCKWAVE™ Equipped Smartlifts

SUPERCHARGE YOUR LIFT WITH

SHOCKWAVE™

AND MAKE YOUR SMARTLIFT 2X FASTER!

*The fastest lifts in the world accelerate your productivity immediately, increase your number of service orders per bay, and can earn you more than \$50,000 IN EXTRA PROFIT!**

SHOCKWAVE Performance Package Includes:

DC Power System REDUCES OPERATING COSTS!

Shockwave's patent pending DC power system gives you lower cost and more reliable operation while using two standard Group 24 batteries.** Shockwave's built in battery charger uses 110v power, eliminating the need for expensive 220v wiring resulting in an installation savings of 80% or more! **This option for speed is available for all SMARTLIFT models!**

Battery-operated power units can be wall or pedestal mounted.

2X Faster Rise and Descent Times!

25 SECOND RISE TIME
19 SECOND DESCENT TIME***

SPOTLINE™ Motion Activated Laser HELPS SPOT VEHICLES THE FIRST TIME!

Center vehicles in bays quickly and accurately using this laser-guided system.

Wall or ceiling mounted laser

More Productivity Makes Happier Techs!

*Actual results from an auto dealership using a SHOCKWAVE-equipped lift. Results may vary. **Batteries not included
***Actual rise and descent times may vary depending on weight of the vehicle.

TRIO™ Adapter Kits

VERSATILE TRIO™ ARM ADAPTERS ARE INTERCHANGEABLE WITH THREE OPTIONS*

Technicians can choose the best optional adapter set for their lifting needs!

Flip-Up Adapters

Three-position adapters for quick positioning on a variety of pick-up points.

KIT #T100274
Includes four (4) adapters

Optional adapters for SL210 TRIO lift

Multiple auxiliary extended height adapters are available for use when raising certain vans or pickup trucks. Contact the factory for details.

Round Adapters

Adapters thread-up to allow protection of the vehicle underbody components or undercoating for no metal to metal contact.

SET OF 4 / KIT #T100272

Optional adapters for SL210 TRIO lift

Also available for use with stackable inserts

Truck Adapters

Auxiliary adjustable thread-up adapter with rubber pads allow for protection of underbody vehicle components or undercoating.

SET OF 4 / KIT #T100273

Optional adapters for SL210 TRIO lift

STANDARD adapters on SL212 TRIO lift

Required use when lifting trucks and frame vehicles
Also available for use with stackable inserts

STACKABLE ADAPTERS

Light-weight steel construction designed to provide additional lifting height when vehicles require additional clearance.

Standard on SL210-TA and SL212 lifts

Shown: KIT#T100271 Set of (4) 3.5" and set of (4) 5" tall extensions

*SMARTLIFT SL210 TRIO lifts come standard with your choice of FA, RA or TA adapters. Each additional adapter set is sold separately. TA adapters are standard on 12,000 lbs. capacity SL212 TRIO lifts.

Retrofit your existing SMARTLIFT with SHOCKWAVE productivity!
Consult your Rotary® representative for details.

SMARTLIFT®

Operating Controls

POWER UNIT CONFIGURATIONS

Conventional Controls

Efficient and easy to use, power units feature a heavy-duty electric motor with single "up" button switch and a single lowering valve release handle.*

One Touch Control with Liquid Detection System

Raising and lowering the lift is simplified with a single button. The lift can be lowered and the safety locks disengaged with one finger.*

Power units can be wall mounted or on a pedestal stand.

* Increase the rise speed of your lift 22% with an optional 3-phase power unit.

Bench Controls

Bench controls improve your facility's image and increase your technician's productivity. Available for conventional and SHOCKWAVE-equipped lifts. Contact Rotary for details.

Shown: Work bench with center bench controls

Time of Full Rise / Descent	53 secs. / 24 secs.
WITH SHOCKWAVE	25 secs. / 19 secs.
Min. Bay size	11'x24' (3353x7315mm)

* Rise measures highest position of the drive-over pad from floor to full cylinder stroke

† Optional 3-Phase electrical available.

** With SHOCKWAVE-equipped lift

Ceiling height required equals rise plus height of tallest vehicle without adapter extensions.

SMARTLIFT® Optional Lift Accessories

Jack Stands

4,000 lbs. CAPACITY

The RS4 jack stand provides added assurance of vehicle lift safety.

Maximum height:
84" (2133mm)

Minimum height:
55 1/2" (1410mm)

Fine thread-up height:
1 5/8" to 7 1/8"
(41mm to 181mm)

Wheel Wing™ Tire Arm

Handy for tire rotations and brake jobs, the 100 lbs. capacity Wheel Wing tire arm mounts easily to the TRIO arm and holds a tire at lift arm height. Folds away when not in use.

- Adjustable to fit various lift arms
- Includes set of 2 arms, 2 magnetic lug nut dishes, shims

TECH LIGHT™ Line Light R

Rechargeable LED inspection hand lamp. Supplied with flexible suspension clips holder with both hook and magnet for positioning the light exactly where you need it

- 180 lumen in main light operates for up to 3 hours
- 120 lumen in spot light operates for up to 6 hours
- 4 hour charging time

MW-200 Tire Lift

200 lbs. CAPACITY

Air operated tire and wheel lift provides maneuverability and adjustable lifting and lowering speeds.

- Quick transfers to tire balancers
- Easy positioning of the tire / wheel
- Includes air hose and auxiliary air tool connection

#MW-500

500 lbs. capacity model available

Lock Light™ - patent pending

Provides an instant green light visual confirmation when lift is **lowered to its locks**. Compatible with most surface and high-pressure lifts that use an electric/hydraulic power unit providing an unused pressure port is available.

Kit includes:

- Indicator light assembly
- Pressure switch
- Mounting bracket
- 10' of electrical wire

assistPRO™ Facility Planning Service

MAXIMIZE SERVICE SPACE FOR GREATER PRODUCTIVITY

Rotary Lift is committed to helping design professionals meet their customer's goals of highly efficient, profitable and environmentally-friendly vehicle repair and service facilities.

An accurate layout is critical to maximizing your shop's space. Each year Rotary Lift assists hundreds of customers with planning support for their vehicle service facilities.

You need the right equipment, the right specifications, the right drawings, and the right partner.

You've found them.

assistPRO™
